Press Release 5/16/19

Snell Crawford Park Access

During the Williams Drive construction project access into Snell Crawford Park will be limited. Monday through Friday any park users please park on the east side of Williams Drive and walk to the park through the north side along the trail. Saturday and Sunday you may be able to drive into the park only from the north. Access will be a temporary rock road that will begin at the trail head and enter through the park. Please be mindful of all pedestrians while driving on this temporary road. We will provide an updated plan at the end of May for June access. Thank you for your patience during this road improvement project.
